## Vote For Robert E. Campbell The Conservative Candidate

### To The Electors of Rocky Mountain Constituency

We respectfully solicit your vote and support for Robert E. Campbell, the Conservative candidate for the above district, on the following grounds and others:

1. The Conservative candidate stands for FREE TECHNICAL SCHOOLS for the miners of the Province of Alberta, which will mean free education to all who desire to take advantage of the opportunity of attending these schools.

2. A MINING COMMISSION which will be chosen from men to be chosen both by the miners and the operators.

3. CHEAPER SCHOOLS BOOKS in the Province of Alberta.

4. A PERMANENT ROAD POLICY, whereby the Province will have permanent roads.

5. THE CONTROL OF THE NATURAL RESOURCES OF THE PROVINCE OF ALBERTA, which will give liberty and

control of all coal in the Province, and all other minerals in the Province, all timber in the Province, all water power in the Province, fish in streams and lakes, every acre of public homestead, pre-emption and school lands.

### 6 IMMEDIATE CONSTRUCTION OF RAILWAYS.

### 7 LAND TITLES OFFICE FOR EACH DISTRICT.

### 8 INITIATIVE, REFERENDUM AND RECALL.

### 9 LOANS TO SETTLERS.

The above are some of the things that the Conservative party stands for. Consider these carefully, look what the other parties have to offer you, then decide which way you will cast your vote on Thursday, the 17th day of April. Let it be for

ROBERT ELDON CAMPBELL

The Conservative Candidate, who has a progressive policy advt.

I am, Electors,

### TO THE ELECTORS

#### Of Rocky Mountain Constituency

Having been nominated by the Conservative party to contest the Rocky Mountain constituency, I take this opportunity of asking the Electors of the Province for their support.

I have been unable to meet each of the voters personally, which is greatly to my disappointment. The District being so large and the time so short, it has been impossible for me to accomplish this task, and I will have to ask the voters to allow me this opportunity for asking for their vote and support.

There are many questions to be discussed, and as stated before, time is so short that it will preclude my having the chance of seeing you personally and for discussing the situation.

There are many questions relating to legislation which has been passed, or which we as Conservatives propose to introduce, so far as it is in our power to do so.

In other columns of this paper you will notice the reasons for which your support and vote is solicited.

I would ask you, after having read the same, that you will see your way clear to give me your vote and support in the forthcoming election, which is to be held on Thursday, the 17th day of April, A. D. 1913.

I am, Electors,  
Yours sincerely,

ROBERT ELDON CAMPBELL

Conservative Candidate  
advt.

## OLD ROB CRUSOE.

**O**llie, poor old Robinson Crusoe. Wasn't he lucky enough after all? If he wanted to hunt he could do so. Without a new license each fall.

If he wanted to rest, why, he rested—No boss called him down again and had him work for him. No more presents because he had no union card.

There was no one to put him in durace. For his wife's alimony unpaid; There was no one to take care of him. Our old friend, the government, had made.

There was no one to make him keep tidy. And shave and dress up every day; There was no one to stir up Man Friday. To strike for less work and more pay.

No doctor with either could fill him.

And when his wife got sick, there were no steam methods to kill him.

Trains, trailers, airships or joy rides.

Nothing for him was worth, lucky fellow! No phonograph rocked him of rest; None borrowed his homemade umbrella. That his pictures all show he possessed.

She—goosey go—she—body. Could him lie was and get "steered." Men of the world are full of shoddy Or put benscote on his food.

There was no one to kick at the weather. And make him feel he was to blame. So take the wind out of his mother. Rob Crusoe was lucky, I claim.

—Walter G. Doty in Puck.

## A Good Steamer.

The lawyers got a start when, in a recent trial in a southern city, they summoned to the stand an aged darky who had been an eyewitness of a fight that had occurred between a number of persons.

"Tell us what you know about this fight," said the counsel when old Moses had been placed upon the stand.

"Fight?" asked Moses, apparently greatly surprised. "What fight?"

"You know very well what fight is meant," said counsel. "Tell about it."

"I don't know nothing about no fight," insisted the witness. "What was it?"

"See here, Moses," exclaimed the lawyer, "no trifling! The fight day before yesterday. You know all about it."

"Oh, de fight day befo' yesterday," said Moses. "Well, sub, you see, I'se slept since de day befo' yesterday, and I never kin recollect anything after I'se been asleep."

And that was all they could get from him.—Green Bag.

## The Oldest One.

"The oldest after dinner speech is sprung the oftener," said an old timer out.

"Always," agreed the person to whom he addressed the remark. "You mean that one that begins, 'I did not expect to be called on, but—'"

"No, no that one."

"Of course not," put in another. "It means the one that begins, 'You know me, I'm a plain folks kind of a man, which some of you may have heard, but which—'"

"No; that isn't the one."

"Well, then, what is it?"

"It's the one delivered by the waiter, and it goes as follows: 'Haven't you tried something, sir?'—Cleveland Plain Dealer.

Florence, who was an ardent admirer of her own vocal qualities, had been selected to sing a solo at a church entertainment.

The following morning at breakfast she remarked to her younger brother:

"Well, I never thought my voice would fill that large hall."

"Neither did I," answered her brother unfeeling. "I thought it would simply—it."—Lippincott's.

## All For a Dollar Fee.

"You are soon to be married to the man you love," said the fortune teller. "Is he a blood?" inquired Miss Caucate.

"Yes."

"Is his name Henry?"

"Yes."

"Does his father own an automobile?"

"Yes."

## An Ambiguous Title.

"That's a swell umbrella you carry!"

"Is it?"

"Do you come by it honestly?"

"I haven't quite figured out. It started with the other day, and I stepped into a doorway to wait till it stopped. Then I saw a young fellow coming along with a nice large umbrella, and I thought if he was going as far as I was, he must be a good boy. So I followed him and shuffled off his mortal coil as Castor, with a weary yawning. Those twins kept up this seewish thing while ages passed on deaden wind and heat. And set them in the starry vault. So by this alternating game."

"I am a twin, you see, and as they twinkle in their place. Help them, to tip up more. —Chicago Tribune."

Frank, Alta., Fri., April 11, 1913

The Coleman correspondent to the Lethbridge Herald seems to be making a rolling stone of Blairmore. Better come out with a few facts, brother, your readers are tired of tommy-rot.

In boasting Blairmore at Macleod the other day, our friend Archie McLeod told an inquirer that Blairmore was lighted by electricity, but forgot to conclude with "at times."

We notice in our Coleman contemporary a reference to the Stand Pat Liberals. The facts of the case should be known before any article should be written. Evidently Editor Stanley was partaking of Liberal-Labor Choice Tomato or Election Boozie when he wrote the article insinuating that the editor of "The Enterprise" was "bug-house."

Editor Stanley states that the Straight Liberals are not standing pat. We wish to inform him that if he visits Blairmore he will observe that they are not quitters such as his friends in Coleman have been and that the Stand Pat Liberals have been beaten by the Socialists in their association. Social Editor Stanley has the trouble to inform himself of the facts they could easily be ascertained by obtaining a copy of the minutes from the secretary, S. W. Berry, Blairmore, Alta.

The Stand Pat Liberals could not stand for YANKEE GUTTER-SNIPER POLITICS being introduced in this Province, and more especially in this riding. Old-time Liberals are disgusted to think that one or two outsiders would be allowed to come into this district and endeavor to rule our political affairs, and they wish to inform Editor Stanley through these columns that all the dirt his paper can fling will not keep them from being good citizens, nor affect their standing with the leaders of the Liberal party, which fact we will be able to show our Coleman friends after the 17th.

### Money Talks

We are informed that all political information (or gibberish) in the Coleman Bulletin is paid-in advance stuff. The editor or management are not fair to the public in not letting them know that all the dope in the Bulletin is cash on delivery.

We ourselves could have allowed our paper to be used for such a cause had we been so far in the political hole as our Coleman contemporary is at the present time by facts that have come to our notice. Although we may be "bug-house," we pay our bills and ask for nothing. C. 400 or P. I. A.

It little behoves a man of such excellent standing (as our Coleman political boss) in the community in which he belongs to have the gall to try to baffle old-time Liberals. We do not blame any person for receiving compensation for work done, providing it is obtained fair and above board.

Drink some more Liberal-Labor Choice Tomatoes Election Booze, then tell the public the facts.

### Passburg Notes

It is much to the notice of the public that the one time suggested candidate for Conservative honours in this burg, passes most of his time in nursing the baby and hanging clothes on the line than he does in boasting the tory cause.

"Waggon O'Brien" is still the favorite with the boys and it is doubtful whether "Billie Powellis" will be able to e-a-g-e-r ideas. The trouble with the Socialist is that he is so poor when he is looking for a fairly good job, he is too blind to support a good master, and has many good masters around here. Even Joe Thomas in sticking his thumb in his waistcoat spreading out his chest and orating on Bill's merits.

F. M. Rondle is a connoisseur for Burns and Passburg and is as busy as a bee in a bottle. We advise him to drop the use of that red tie, for the time. We know he will poll right but only a h-i-t of a badge just now.

We hear that the Leitch Collieries are going to install a new mine fan and have already called in the services of Mr. L. C. Stevens in deciding on the location of the same.

Jack Kerr, one of our Tory filibusters, gets busy now and again trying to sell the Socialists how to vote. Jack wouldn't be too bad if he would only adopt a platform from whence he could put up a more convincing line of dope.

### Miner Killed at Hillcrest

A sad accident occurred at the Hillcrest mines on Tuesday evening, which resulted in the death of Robert Culien and injuries to two other miners.

Cullen was a native of Nova Scotia, where a wife and children are left to mourn their loss. He was about forty-eight years.

An inquest was held before Coronor Pinkney, at which Mr. Aspinwall, the provincial mine inspector was in attendance. The following verdict was returned.

"That the deceased, Robert Culien, came to his death at Hillcrest Mines about 7 p.m. on Tuesday, April 8th, 1913, the cause of death being severe internal injuries resulting from crush of the pelvis and abdomen."

"From the evidence given by the various witnesses, we are satisfied that if proper precaution had been taken in seeing that the drag was used, and attention also given to couplings before starting to hoist the trip from the bottom, this accident might have been averted."

"We would strongly recommend the advisability of further means being adopted for minimizing accidents of this nature by the use of stop-blocks or runaway switches."

Frederick M. Pinkney, coroner Frederick C. Long, Coroner Joseph Twiss, Plus McNeill, Arnold Martell, Harry N. Marshall, Frank G. Vickers, William K. Munro."

The body was embalmed by undertaker Davies and enclosed in a beautiful casket for shipment to Nova Scotia, whither it was dispatched on Thursday.

"My little son had a very severe cold. I was recommended to try Chamberlain's Chilly Remedy, and before a small bottle was finished he was well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sidney, Australia. This remedy is for sale by all dealers.

### Davie-Moxin Nuptials

A pretty wedding was solemnized by the Rev. J. F. Hunter at the Central Baptist church on Wednesday afternoon.

The contracting parties were Richard Alder Dayie, of Grassy Lake and Miss Mary Moxin, of Blairmore.

The bride was attended by Misses Effie Beard and Hazel Ennis, while Dick Marshall and Harold Pinkney, supported the groom. Mr. and Mrs. Burrows acted as father and mother-givers respectively.

After the ceremony the happy party repaired to the home of Mrs. Burrows, where a housewarming spread was partaken of.

Among the guests were Mr. and Mrs. Alder, of Grassy Lake, Mr. and Mrs. Hilton, of Frank, Misses Effie Beard and Hazel Ennis, and Mr. and Mrs. James Burrows, Messrs. W. Howe, H. Pinkney, D. Marshall, M. Moxin and C. Roy.

On Thursday night a second repast was held at the home of the bride's parents were a goodly number of guests assembled.

Honest Bill's pamphlets may be obtained any time at the Passburg hotel, Rowell's store, or Joe Thomas

The Male Voice Choir are busy getting up selections ready for a great big "estaford" when Joe's party gets in. We wish them the opportunity of thus showing their vocal prowess.

Sid Bert and Malcolm Sinclair commenced to work as wag's slaves for the coal baron, Hamilton, this week. Sounds awful doesn't it, but that is how the Socialists like to glorify themselves. Some Glory Eli!

It's a pity that "Waggon O'Brien" does not do humanity a good turn for once and shut up with all his "play" bank. He talks gibibus about party politics and bawls out parsons but overlooks the fact that he is so hide bound to the non-descript outfit in the States that he cannot find time to welcome or support measures that would do good to the general public in the Pass.

THE VINDICATOR, FRANK, ALBERTA.

## EATS FARE OF POOR MAN

Visits London Lodging House to See How the Needy Live

London, England.—The exiled king of Portugal was on one of those occasions since he came to live in England shown his interest in the serious affairs of life. He spent over an hour in learning how the poor live in the neighborhood of Drury Lane.

Bruce House, the L.C.C. lodging house which occupies the whole block in Kentish Town, where the king visited between 12 and 1 o'clock. This establishment provides lodgings for about 700 inmates at 14 cents per week. Facilities for visitors are also a limited number of rooms let at \$1.25 per week.

Dom Manuel was accompanied by the Rev. Mr. Lyons, L.C.C., and S. S. Burgess, manager of the council. They were conducted through the building by Mr. and Mrs. John H. Webb, who superintended the lodging house.

What can you serve a good dinner for? was one of the questions which the king and Mrs. Gerard asked. What looks after this department was given to him information on the point, surprising information to judge by his manner.

He told that stock pudding and two vegetables were supplied for 6 cents, two meat rissoles with bubble and squeak for 4 cents, a chop and two vegetables for 5 cents.

Then as to sweets? asked the king. Mr. Gerard showed him several that are supplied for a penny each. They were all good, he said.

And then, Dom Manuel expressed

astonishment that everything could be kept so clean. He took an especially interest in the bread-and-butter pudding, gourmets of which contain currants. Mrs. Gerard cut off a pencil slice, which she presented to the king, who ate most of it and pronounced it excellent.

The cook who had prepared that pudding blushingly received his commendation.

Mrs. Gerard is preparing the spoon and fork while the royal guests are seated.

## CHILDREN GIVEN ORANGES

London School Board Takes Measures To Check Spread of Influenza

London, England.—The 600 children at the Lambeth Poor-law Schools at Norwood are to be given an orange juice drink as a preventive against influenza.

This new anti-influenza preventive is the result of a recommendation of Dr. Miller, medical officer of health of the schools to the board of governors. The chairman of the board in discussing the value of oranges as an influenza preventive stated that at any rate the oranges could not do any harm.

Dr. Miller said that they did not do any good.

Lambeth's physician was inclined to take a much stronger view of the value of oranges as a food for school children.

He said that a child taking a week may not be sufficient to cure off this infectious disease, the doctor stated: It at any rate is a step in the right direction. And we, and particularly the children, would much less likely to contract disease of all kinds if we ate more frequently.

The fruit hunger of children has, in fact, long been recognized as a want of the system, which must be supplied with small amounts of workmanship that his father, who is a carpenter, took him to task.

What kind of a shock do you call me? he asked the boy.

On that all right, man, replied William, I'm building it to rent.

MAYOR KIDNAPPED ON AIRSHIP

Bound Hand and Foot, Lashed to Machine and Carried Sixty Miles

Austria.—Thespis, fever, which is again epidemic on both sides of the Russo-Russian frontier, is responsible for several extraordinary incidents.

The mayor of a small town near Vienna, Dr. Polak, declares that he was kidnapped by a Russian air scout several days ago. According to his story, he heard the sound of an aeroplane late at night when he descended in a field in the town he used to capture the occupants, armed only with the insignia of his office.

He said that the two airmen turned the tables by binding him hand and foot and lashing him to the body of the aeroplane. They entered the castle, warned their prisoner not to struggle and resumed their flight.

The terrible mayhem was finally broken up near the town of Bar, sixty miles away, and before he could give the alarm his aerial kidnappers vanished.

Prussia has continually reported the passage of Russian aeroplanes at night. An Austrian aeroplane which had descended in Russia two days ago was confiscated and the airmen who were on board were arrested.

## SHE TOOK HER FRIEND'S ADVICE

AND "DODD'S KIDNEY PILLS CURED HER SON

Straight and Simple Statement Tells of Another Grand Cure by the Old Canadian Kidney Remedy:

"I am 60 years old, N. G. (Special)—Simple and straight the point is the statement of Mrs. Ernest C. Tretry, of this place, but it tells of another grand cure by Dodd's Kidney Pills."

"My fifteen-year-old son Angus," Mrs. Tretry states, "suffered from pain in his kidneys, headache, and a pain over the eyes."

"He was so bad he could not walk across the floor. My friends advised him to give him Dodd's Kidney Pills."

"They cured him."

That young Tretry's kidneys were wrong is evidenced by the cure, Dodd's Kidney Pills only cure disorders of the kidneys.

They never fail to do that.

The reason they cure rheumatism,

## Milady's Mirror

### A CITY OF DIVORCES.

Hair During Illness.  
Whenever a person is ill at home one of the points most likely to be neglected is the care of the hair. In a great many cases women recover from sicknesses of only a few days to find their hair so snarled and matted that it almost is impossible ever to remove the tangies.

If on the first day of an illness the hair is properly taken care of there need be no occasion for this condition. The hair should be parted down the center and combed with the fingers; hands should commence far enough toward the front that the patient will not lie on them when the back of her head is on the pillow. The hair should be combed at least once a day. The patient should lie on her side, and then wash the hair. The hair should be dressed without any trouble, no matter how sick the patient may be.

In combing the hair one should commence at the ends, gradually removing the tangles by working upward. If the hair is grasped by the left hand between the roots and the part being combed the patient will not complain of the pulling.

If the hair is badly tangled olive oil may be applied, which will greatly lessen the labor. Where the matting is extreme it is best to try to comb all the tangles at once, as this will be too much of a tax on the patient. A few strands can be separated at a time, then braided so as not to become tangled again.

When a patient is compelled to lie bed for a number of weeks the hair should be washed with warm water, convenience and without danger to the patient. The pillow should be well protected by a rubber sheet and the patient moved as near the edge of the bed as possible. Two basins of rather hot water containing salt should be placed under the feet to assist the contract of the marriage and the nuptials, the possessor of a wife, or, indeed, a man who does not, according to his wife's will allow him to establish himself in a gainful calling, a wedding ceremony takes place in due form as the merchant generally young and ardent finds himself at the end of the legal threads which bind him to the woman he loves. As soon as he finds his exchequer becoming depleted he gives to each of his wives in order of their preference, her husband's name and the amount of money. Should she have borne him a child he is bound by the Koran's law to give her some furniture. When his wife has died he is bound to his last wife, he bequeaths on her all the goods and chattels that remain to him and sets off again to Tripoli, the Sudan, or Egypt, to return perhaps to his spiritual home. As soon as he finds his exchequer becoming depleted he gives to each of his wives in order of their preference, her husband's name and the amount of money. Should she have borne him a child he is bound by the Koran's law to give her some furniture. When his wife has died he is bound to his last wife, he bequeaths on her all the goods and chattels that remain to him and sets off again to Tripoli, the Sudan, or Egypt, to return perhaps to his spiritual home and take another series of wives.

So it happens that Fez is a city of divorcees. It may be wondered if this is the case of the entire Mohammedan world. The Koran forbids them under penalties of servitude and degradation from taking another husband. Some times they have been divorced as among the most beautiful women of the world.

### GREEK FIRE.

*Fee in Morocco Is Said to Possess the Record in the World.*

Morocco possesses a city, Fez by name, in which the great majority of women are divorcees. The number of women in this city, according to recent figures, reaches about 150,000. The adult population is estimated at 40,000. The number of women in this city who have been divorced from their husbands for no other reason than that their husbands could no longer afford to keep them is surprising, the reason of which an Arab can divorce a wife rendering the existence of such a city possible. The Moorish law knows only one kind of divorce, that of desertion, committed by the reigning Sultan, who is the lineal descendant of Mohamed, is also heralded High Priest.

There is a certain amount of adventure and gallantry. Situated on the great caravanary routes from Algeria, Tripoli, and the Eastern Sudan, it is a convenient rendezvous for the Moors who have gathered great fortunes gathered by speculations in the minimum of time.

Slave dealers—those who still thrive—

are here, and all kinds of evil dealing, commerce, at Fez from all parts of Northern Africa, making it a considerable centre for a large number of girls. These average price for a female according to the qualification of beauty, form, range from \$50 to \$250.

In order that the deal may bear the name of a Mohammedan bazaar, a giving a wedding ceremony takes place in due form as the merchant generally young and ardent finds himself at the end of the legal threads which bind him to the woman he loves. As soon as he finds his exchequer becoming depleted he gives to each of his wives in order of their preference, her husband's name and the amount of money. Rev. T. M. Murray, of Coleman, will occupy the pulpit of the local Presbyterian church both morning and evening of Sunday next, while the services at Coleman will be conducted by the Rev. W. H. McMaster, B. D.

A meeting of football pushers was held on Wednesday night in the council chamber. It was decided to join the Crow's Nest Pass league, and Messrs. McDonald and Huston were appointed a delegation to attend a league meeting at Hillcrest for the purpose of joining.

The new mine rescue car for the Crows' Nest Pass division has arrived here. This car is the first of its kind to be supplied by the coal companies and the government, and will be equipped with all the latest and best apparatus and will occupy a siding ready for any emergency.

Miss Ratte, of the Presbyterian Board of Social Service, is to speak at the Mission Hall next Thursday evening, and is willing to be interrupted as election results come to hand and are announced at the meeting. She has a wonderful and pathetic story to tell of the Canadian underworld, and of redemptive effort therein. Mayor Lyon is to take the chair at 8 p.m.

Dick Marshall is billed for a fifteen-round boxing bout with Jack Rogers at Fernie on Wednesday, the 23rd inst. Rogers is of the first water of the western States, having been up against some of the best "pugs" of his day, and his meeting with Drednaught Dick will give one good opportunity of finding the soundness of our local product.

Those "Scotch Refreshments Only" at the Mission hall next Tuesday night, when the Rev. T. M. Murray, of Coleman, gives his lecture on Scotland, are still a matter of speculation. Apparently Mrs. J. M. Carter, who is organizing known as to extent and strength. J. W. Vergé is to preside, and in addition to the lecture and lantern slides, some musical illustrations are to be provided. To prevent overcrowding, admission is to be by ticket—25 cents for adults and 15 cents for juveniles. The proceeds go to the women's guild for material for their forthcoming sale of work on behalf of the new church.

You will look a good while before find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt sure it will effect. For sale by all dealers.

## Happenings in and Around Burns

Jas. Taylor was visiting Burns this week as agent for the Lilly Adjustment Agency, investigating the cause, etc., of the fire which destroyed the pool room last week. We understand that Mr. Chalmers had \$2,000 insurance on the pool tables, bowling alleys, etc., that he brought from Coleman, also \$600 on an addition he had built on living room, and that Mr. Stevens had the original building and pool tables insured for \$800.

James Dougall is indulging in a trip to Winnipeg. We hear on very reliable authority that he intends to buy a carpet for his home while away. Wow.

The adjustment of the polling divisions for Burns and Passburg has been made and the inhabitants will not have to go to Bellevue as at first set out, to register their vote in the Conservative cause.

Mrs. H. Smith, we regret to state, has been seriously ill, but is now making satisfactory progress towards recovery.

Mrs. Sam Fisher will be leaving for the old country next week, her many friends will be sorry to see her go.

The nucleus of the Burns football team met last week to study out how long it would take them to develop into a full blown eleven. We understand that they are now working in "swards" but do not anticipate any solution of the difficulty until the "calculus" is resolved to.

Charlie Schriener and Paddy Kennedy are the two worthy representatives of the Socialist cause in Burns. Talk about bunk houseatory; well I guess!

At the ordinary meeting of the Gazzucks it was again decided that the President should outline the political situation with a view to guiding members to the correct standpoints for them to take up on polling day.

On rising the President wished them to note all the remarks he had made previously on the Liberal-Labor line of bunk.

These remarks were not made with the purpose of discriminating with reference to J. O. Jones, but applied equally all round; so having absorbed this, the next question was, who is the most worthy of support—the Socialist or the Conservative. In direct reference to this question I would ask—do you want representation in the house or not? If you want representation, if you want to put in a man who counts one when the division time comes, if you want value for the money you pay by way of indirect or direct taxation then you must vote for Campbell.

There are several reasons why Bob Campbell should get your support. He is not a Socialist, that is the first reason; he is not a Liberal; that is the second reason; and he is not that hybrid, lungus growth known as a Liberal-Labor candidate.

I admire Charlie because he stays with his game in spite of the fact that he is fighting a losing cause, but men like Powell and Jones, Jones in particular—as Bill is without doubt a Liberal and always was, whereas Jones is just a modern multiparty slob,—should be passed up with a rapid quick fire action. Speaking of the honorable Charlie, I know him personally and he is a good sport, etc., etc., but that party of his will be his ruin. He is not prepared under their propaganda to take a side, he gains support and deliberately lets it in and when it comes to a show down, or to be more parliamentary, a division, Charlie is left high and dry.

Mark my words, he is a good politician but uses his abilities in doing nothing but dodging support. Cheap martyrdom, that is all it amounts to. He comes around, addresses us as fellow slaves, or if he is feeling good, "comrades," and poses as being a man who has advocated this and that and been turned down by everybody.

Brethren, his position is false, it has no foundation, and what is more important to us, we are living under a system of party government and will be in time to come, and must have a vote in the house. Charlie's statement that the ties form good enough highway for the slaves he represents is not calculated to impress anybody with the idea that he intends to alter his ways, so pass him up. What we want is representations, and having got that we want natural resources, good roads, technical education, and we don't want direct taxation.

If Jones knew the first thing about business administration he would blush as red as the tie he has just taken off his shirt front at the invidious position of liberal anything, and so would Powell; but both have had their schooling in the A. M. W. of A., which though an excellent institution in principle has been badly managed. Take the Ferne Ledger occasionally and see the way the Jones-Stebles bunch try to bungle the organization.

In Campbell we have a man and a gentleman. He knows this western country from a to z, was in the Pass before the C.P.R.; a man who will roll the northern part of this riding solid and what's more to us, a man who will have a vote in the house and use it. I say, use it!

The Dominion government is Conservative, we have everything to win and nothing to lose for the coming year. Every week sees the arrival of new men who promise to make good.

The union held a lengthy meeting on Sunday evening. The enthusiasts are delighted over the prospects for the coming year.

The union held a lengthy meeting on Sunday evening. The enthusiasts are delighted over the prospects for the coming year.

At the church "next Sunday evening Mr. Irwin will deal further with the political situation. An open discussion is invited at the close of the service.

Mr. and Mrs. Wilson, of Monro, were Bellevue visitors on Friday last.

Steve Humble is greatly improving his store by the addition of two show cases of the silent-salesman type.

Mrs. Fred Wolstenholme gave a birthday party at her home on Friday evening.

A birthday party was given on Monday evening by Miss Deborah Litherland, of Maple Leaf.

Mr. Bowie, of the Hillcrest Co-op, met with an accident while driving through a snow drift near the station on Monday. The wheel of his buggy was completely smashed, but beyond that nothing serious happened.

Operations will commence at once on the new block of stores to be built by J. Whiller. This will be the most pretentious block in Bellevue and will greatly enhance the appearance of the town.

The Burns block is nearing completion and the stable is now in course of erection. The company have their stock of ice all up and are prepared for business.

What might have been a serious accident occurred on Friday evening just east of the mine yard when a car left the trucks while being shunted on the track. The smash-up resulting cost the C. P. R. three cars which were completely demolished. Fortunately no one was hurt.

Willie Cousins met with a painful accident at the mine on Monday evening while playing with some other boys around the yard. Coming into contact with a mine car he had his fingers badly

crushed. He was attended by Dr. MacKenzie.

Miss Glendening, of Coleman, was a Bellevue visitor on Tuesday.

J. F. Miller, the optical expert, was doing a rushing business here on Tuesday,

Miss McMurry was a Coleman visitor on Sunday.

Albert Hallworth and family will occupy the house vacated by Mr. Matson recently.

Matt Matson and family moved to Coleman this week. Mr. Matson was one of the oldest residents of Bellevue and his absence will be greatly noticed by all the old-timers here.

The infant son of W. Newton, the local boxer, died on Sunday morning.

The infant daughter of Mr. and Mrs. S. Shone has been ill for the past week, which has delayed their moving to Calgary.

Ned Drake is the busiest man in Bellevue these days. Ned is working for the election of Charlie O'Brien. He states that he is handicapped by having no Socialist beer or cigars, this brand is not yet on the market. Nevertheless Ned says that truth and right are on his side and he is sure that Charlie is on the way back to Edmonton.

The football association held a meeting on Sunday evening. The enthusiasts are delighted over the prospects for the coming year. Every week sees the arrival of new men who promise to make good.

The union held a lengthy meeting on Sunday when the political situation was aired from all sides. The general disposition is to keep out of politics in this campaign. Every man will vote according to the merits of the respective candidates appeal to him, without any coercion on the part of the organization.

DATED AT HIGH RIVER this 8th day of April, A.D. 1913.

WHY HE WAS LATE

"What made you so late?"

"I met Smith."

"Well, that is no reason why you should be an hour late getting home to supper."

"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."

"Did you tell him to take Chamberlain's Tablets?"

"Sure, that is what he needs."
